

Trimble Survey Controller™ Version 10.x

June 26, 2003

Geomatics and Engineering

Font Size in Trimble Survey Controller HTML Help

Details

The Trimble® ACU and TSCe™ controllers display the Trimble Survey Controller™ Help through Microsoft Internet Explorer. In some cases, the font size may be too small to read easily, especially if you run the software in an Asian language.

To display the help files in a larger font size:

1. In Internet Explorer, select *View / Font*.
2. Select *Large* or *Largest*, depending on your requirements.

This setting is retained when you perform a hard reset on the controller. However, if you upgrade the operating system, the setting reverts to its default (Medium).
